Meeting began at 11:30 a.m.

WKU, Vol State and APSU students continue to conduct field work during the summer months.

THWI update: installation of rain gardens, product demonstrations, and many other stormwater BMPs continue throughout the summer months.

Announced TNSA annual convention. Discussed various stormwater-related associations, SESWA, AWRA, ARRA, etc.

Advised new attendees about what this group is about and what we do, frequency of meetings, etc.

TDEC annual report is due the end of September. Discussed endangered species reporting. Working on having a TDEC representative join us at an upcoming meeting to discuss reporting for the annual report and other documentation and procedural requirements.

Sherman-Dixie/KriStar LID product and equipment presentation. Sherman-Dixie is headquartered in Nashville and represents KriStar products. Discussed new innovations of Metro Nashville’s structural BMPs, precast underground detention system options, updates on LID BMP regulations, bio retention systems and more. Had very good discussion Q&A time. Product catalogs and flyers were distributed. Provided 2 PDHs and product literature. Mike invited the group to visit a plant tour where the products are made. Have options of Hermitage or Franklin. Contact Amy if interested.
